

I am writing to inform you that K-LOVE is an important part of my life and my children. While we listen to K-LOVE we do not worry about what might be said or what my children will hear in the music or commentaries from the staff. It is a wonderful tool used to spread the gospel to those who need it and want it. Removing this broadcaster will give people like me not freedom to listening choices. I do not care to hear filth or sexual comment over the air from the radio station or the television station that I chose to listen to. K-LOVE gives me that freedom to enjoy pure musical enjoyment.
